

1. Locate each of the following. Write down the item # found on the yellow tag:
  - a. \_\_\_\_\_ Broken glass container
  - b. \_\_\_\_\_ Emergency shower
  - c. \_\_\_\_\_ Emergency Eyewash station
  - d. \_\_\_\_\_ First aid kit
  - e. \_\_\_\_\_ Chemical spill kit
2. In what drawer are the micropipettors located? \_\_\_\_\_ The 5 ml glass pipettes? \_\_\_\_\_
3. Which of the following should not be worn in lab? (circle one)  
T-shirts / shorts / flip flops / glasses / jewelry
4. You just started an experiment and inoculated some agar plates. They now need to be incubated. Where should these be placed at the end of the class? \_\_\_\_\_
5. A chemical has the 3-color NFPA label coded as follows: blue=2, red = 4, yellow = 1. This chemical has/is:
  - a. \_\_\_\_\_
  - b. \_\_\_\_\_
  - c. \_\_\_\_\_
6. All microbes used in this lab: (circle one)
  - a. are pathogenic
  - b. are harmless
  - c. should be treated as if they are potentially pathogenic
  - d. are opportunistic pathogens
7. Locate the following (room # or drawer/door #):
  - a. Autoclave \_\_\_\_\_
  - b. Lab refrigerator \_\_\_\_\_
  - c. Lab freezer \_\_\_\_\_
  - d. Walk-in incubator \_\_\_\_\_
  - e. Spectrophotometer \_\_\_\_\_
8. What should you do if you spill a test tube containing live bacteria? (circle one)
  - a. Wipe it up immediately with some paper towels
  - b. Cover the spill with disinfectant and notify the instructor
  - c. Leave the room immediately and call 911
  - d. Nothing, let the TA take care of it
9. When labeling a Petri plate which you inoculated, I require all of the following to be included except: (circle one)
  - a. Name of the organism or source of the inoculation
  - b. Lab section (Lab A, B or C)
  - c. Room number
  - d. Your name, or lab group #
10. True or false:
  - a. \_\_\_\_\_ You are permitted to bring bottled drinks into lab
  - b. \_\_\_\_\_ You should wash your hands and disinfect your lab bench every 30 minutes
  - c. \_\_\_\_\_ Lab notebooks are optional
  - d. \_\_\_\_\_ You must tell the instructor about any kind of spill or breakage in lab
  - e. \_\_\_\_\_ Used microscope slides and pipette tips may be thrown out in the garbage cans
11. You find a test tube on your bench labeled with the designation "PF". What microbe does this test tube contain?
